

Smart locker systems for shopping centers.

Maximum shopping convenience and increased added value.

The innovative Variocube smart locker system for shopping centers offers clear advantages for operators and visitors. Low maintenance costs and reduced personnel expenses are decisive for center operators. Customers benefit from versatile solutions with functions such as day-locker, click & collect station or drop-off and pick-up for dry cleaning services.

Advantages for shopping center operators.

Customized design

Different materials and high quality finishes available, suitable for the interior design.

Lower service costs

No more losing keys and codes: you save on the maintenance effort of the locker systems in your shopping centers. Service and admin tools for cleaning, occupancy levels, etc. are also available.

Multipurpose

Multiple applications possible on one installation: baggage storage, dry cleaning, click & collect, service drops...

Not only free hands as advantages for your visitors.

Too warm with your jacket on, all hands full but more things to do? In order to make your customers' stay as relaxed as possible, convenience offers are essential. The innovative Variocube locker system offers clear advantages here for operators and customers.

Simple registration

Enter the phone number once on the display and receive digital key card via SMS and use it permanently.

Family & Friends Sharing

Family or friends share a locker, each smartphone turns into a key.

Reminder function

Customers can be reminded to empty their locker via SMS. This saves time and hassle.

Offer added value to your stores and visitors.

New sales and service channels

New sales and service channels for retailers. The Variocube system can also be used as a Click & Collect station without extensive IT integration. Drop-off times for devices requiring service can be extended. Our API enables integration into your Center app and your customers' ERP or online shop systems.

Free or paid use

Payment functions can be integrated via NFC terminal or online payment services (credit card, direct debit or Paypal). You are free to choose whether your visitors may use the lockers for free or for a fee.

Textile cleaning for a complete offer

You can round off your service offer additionally with a textile cleaning. The automatic receiving and delivery point for textiles as a new distribution channel is already available with us.
