# Admin-Interface

- 1** Log in to the Safecube Admin area.  
<https://admin.safecube.io/admin/login>

- 2** Select the location you want to edit

- 3** Select the cube to be edited at this location

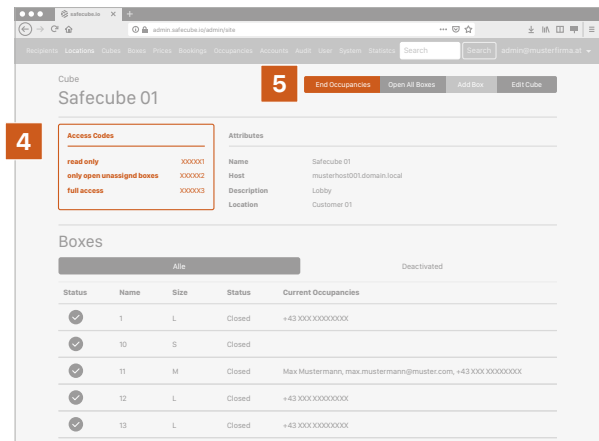

- 4** Detailed overview Cube

Here you will now find three access codes that can be entered on the Cube to access the Maintenance Menu.

**Read only:** Read-only access to be able to query the status of the compartments

**Open only unoccupied:** e.g. to be able to clean free compartments.

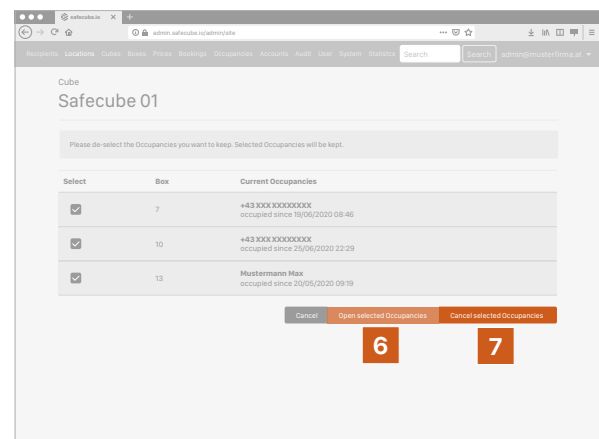

**Full access:** Full access

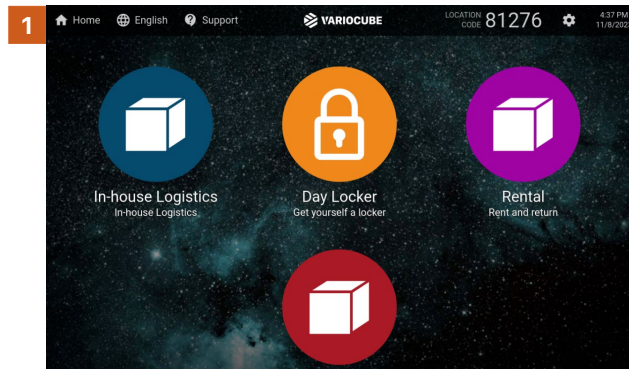

- 5** End allocations

- 6** Under End allocations, allocated compartments can be opened for control purposes...

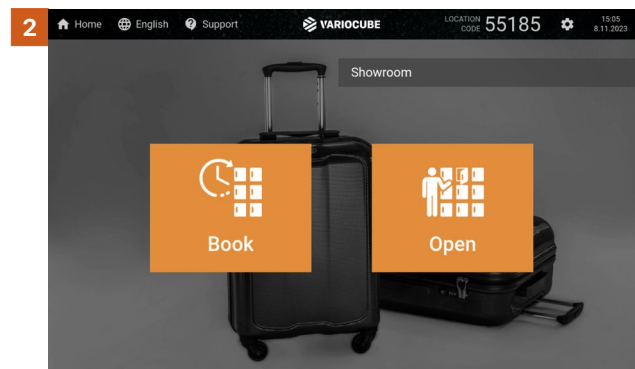

- 7** ... or after clearing compartments (e.g. in the evening) their occupancy is terminated.

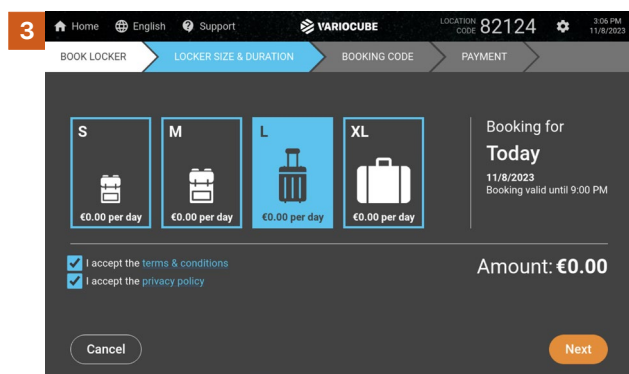

# Booking with payment function

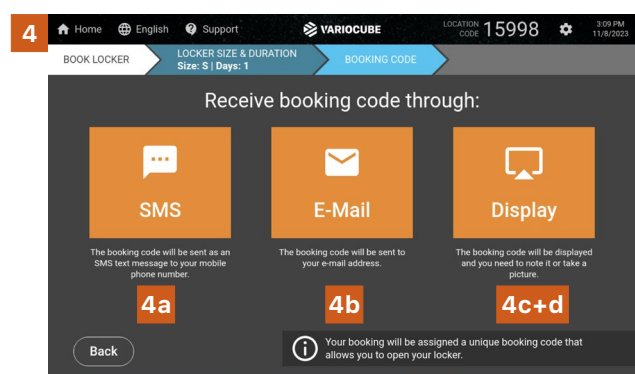

If several applications are installed on a system, select the **Daylocker** application.

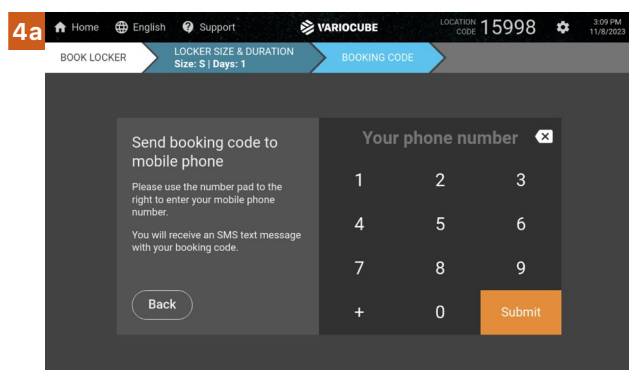

Select **Book**.

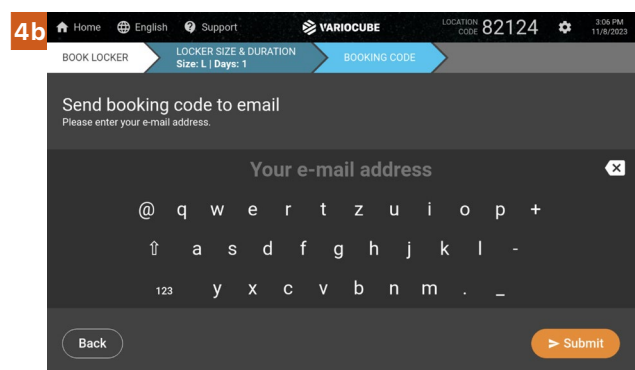

Select the required **compartment size** and booking **duration**, press Next.

Choose how you would like to receive the booking code: **SMS**, **e-mail** or **display** on the terminal.

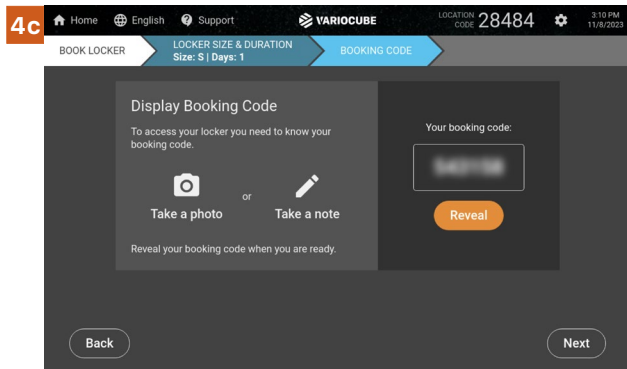

Enter your **mobile phone number**. The system will send the booking code by SMS.

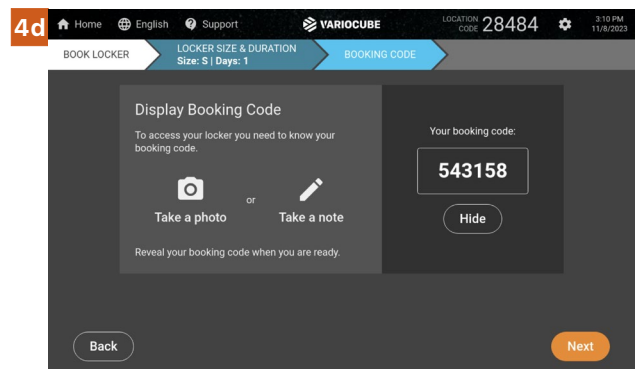

Enter your **e-mail address**. The system will send the booking code by e-mail.

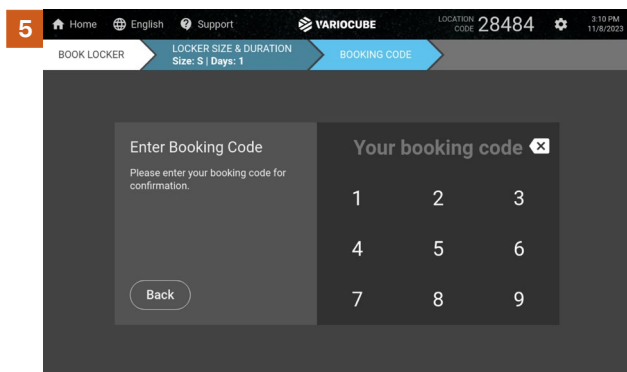

# Booking with payment function

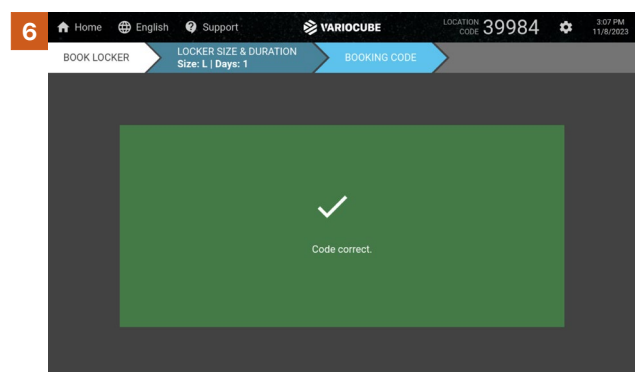

The booking code is blurred for security reasons.

To read the code, click on **Reveal** and then on Remember code/Note, then click on **Continue**.

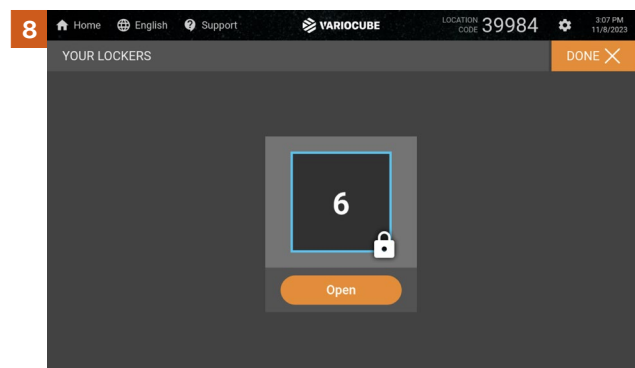

Enter the booking code you have read or received by SMS/mail.

The code was recognised as correct.

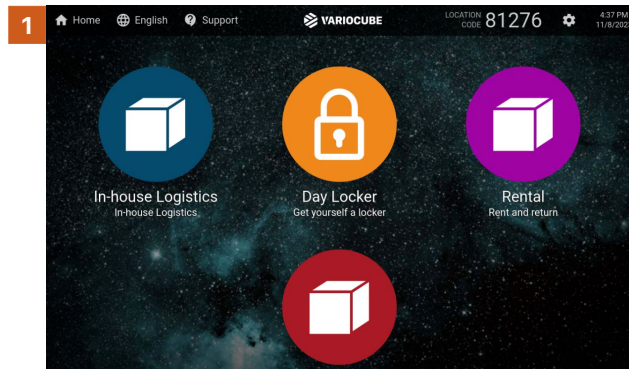

The payment process using the NFC terminal begins; follow the instructions on the terminal.

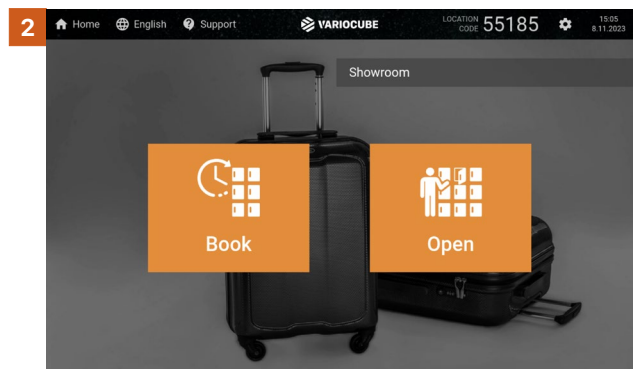

An available compartment can now be opened.

- If the locker has been used for more than half an hour, you will be asked whether you want to return your locker return it or keep it.
- If you have used the locker for longer than was booked, you will be asked to make an additional payment.

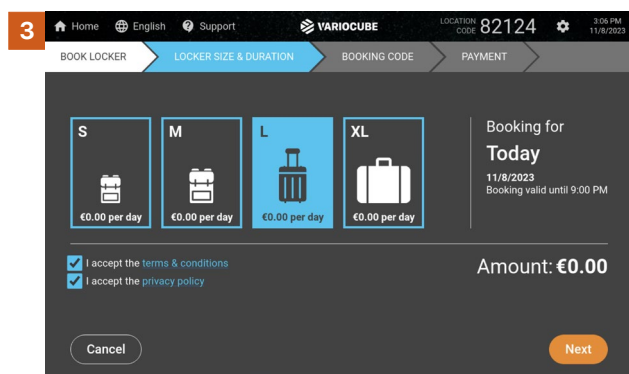

# Booking without payment function

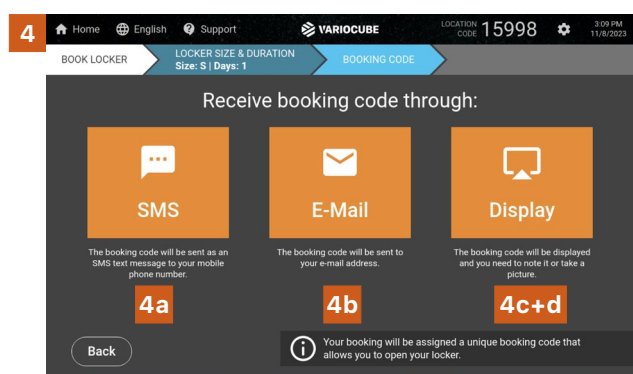

If several applications are installed on a system, select the **Daylocker** application.

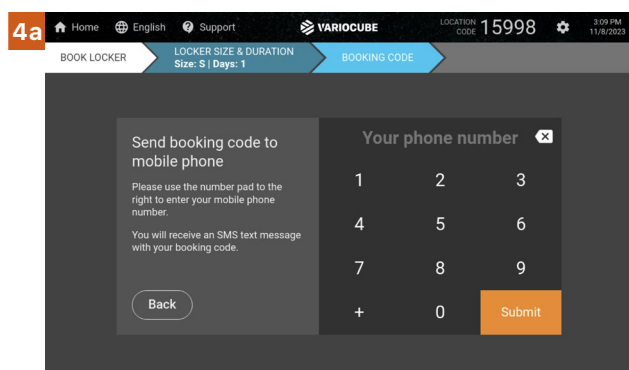

Select **Book**.

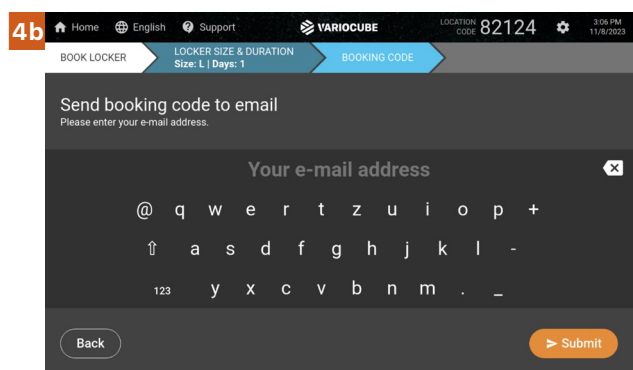

Select the required **compartment size** and **booking duration**, press **Next**.

Choose how you would like to receive the booking code: **SMS**, **e-mail** or **display** on the terminal.

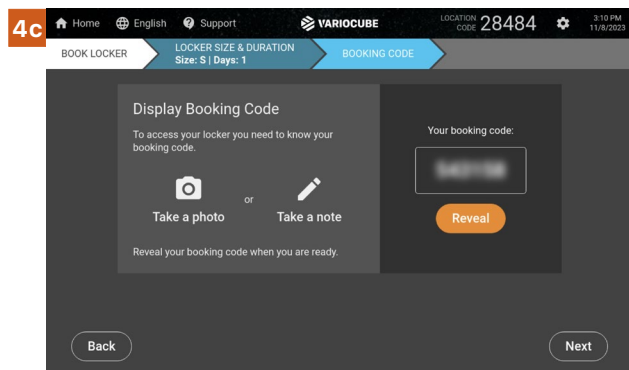

Enter your **mobile phone number**. The system will send the booking code by SMS.

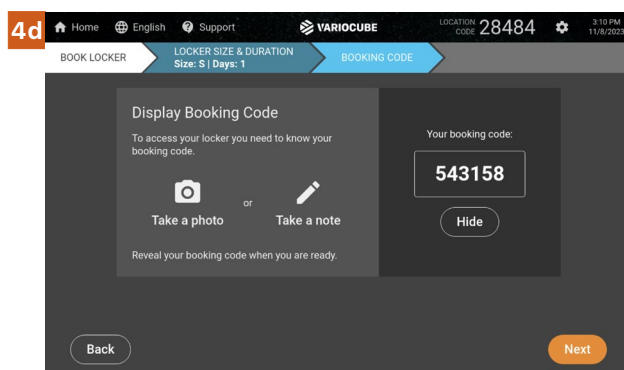

Enter your **e-mail address**. The system will send the booking code by e-mail.

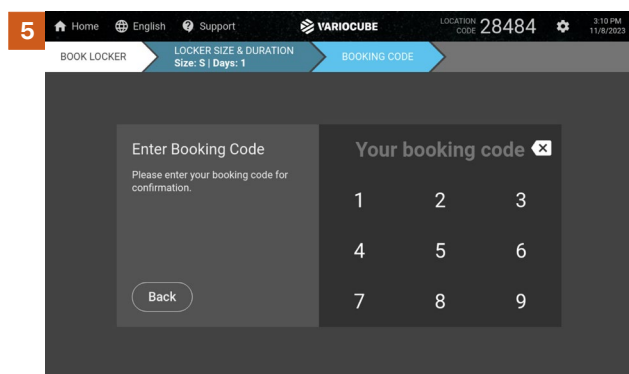

# Booking without payment function

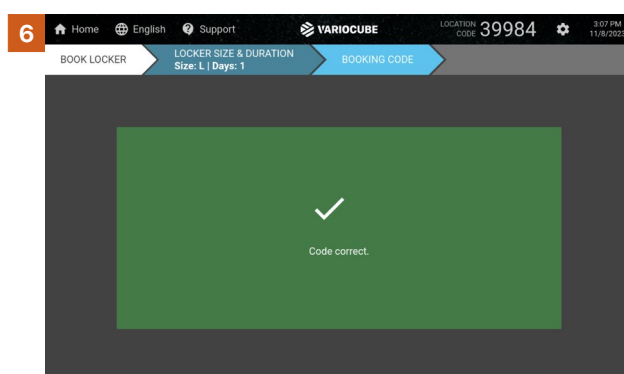

The booking code is blurred for security reasons.

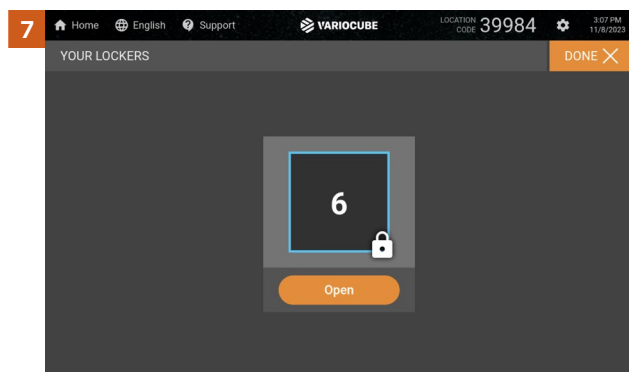

To read the code, click on **Reveal** and then take a note or simply remember it, then click on **Continue**.

Enter the booking code you have read or received by SMS/mail.

The code was recognised as correct.

An available compartment can now be opened.

# Turnkey System Solutions for Web-Enabled Lockers.

## Cutting edge web technologies and innovative locking systems paired with modular locker configurations.

- Extremely modular and adaptable.
- Cloud-based, use of proven, front line technologies.
- Secure due to purpose designed system architecture.
- Durable metal finish, suitable for large scale use
- Can be planned individually as furniture by architects or designers.
- Cross channel use due to various locker sizes in combination with simultaneous multi-app capabilities.
- Independent, due to use of a mobile network connection, only a 230 volt socket is required.
- Easily integrated into your IT setup.
